SUMMARY OF CONTENTS

Preface	10
Forewords by Donald H. Sadler	13
Prologue	15
Part 1: At Greenwich: 1930–1936	17
1. First impressions	17
2. Mainly about the work of the Office	22
3. Mainly about L. J. Comrie and his work	30
Part 2: At Greenwich: 1936–1939	39
4. Change and expansion	39
5. New developments	46
6. Procedures and moves	53
Part 3: At Bath: 1939–1949	57
7. Early days at Bath (before the move to Ensleigh)	57
8. From the move to Ensleigh to the end of the war	67
9. The Admiralty Computing Service	75
10. The post-war period (to about the end of 1947)	80
11. Major changes in the post-war period	88
Part 4: At Herstmonceux: 1949–1972	99
12. Early years at Herstmonceux: 1949–1951	99
13. End of the Spencer Jones era: 1952–1955	109
14. Woolley becomes Astronomer Royal	119
15. Period as General Secretary of the I.A.U.	132
16. Transfer to the Science Research Council	141
17. A change of duties	155
Epilogue	160
Appendices	161

CONTENTS

PREFACE	10
FOREWORDS BY D. H. SADLER TO HIS MANUSCRIPTS	13
PROLOGUE — PERSONAL HISTORY TO 1930	15
At Trinity College, Cambridge	15
Looking for a job	16
PART 1: AT GREENWICH: 1930–1936	17
1 First impressions	17
Appointment in H. M. Nautical Almanac Office	17
Staff and accommodation in 1930	17
Early work in the N.A.O.	18
The Daniels and Richards	19
Emden's equation and other tasks	20
Work of the junior staff	21
2 Mainly about the work of the Office	22
The method of cyclic packs	22
The use of punched-card machines	22
More on the use of cyclic packs	24
The use of Brown's Tables	24
Status of N.A.O. work in 1935	25
Various incidents involving Comrie	25
The occultation programme	26
Eclipse and comet work	27
Navigational work	27
Use of National machines	28
3 Mainly about L. J. Comrie and his work	30
Comrie and mathematical tables	30
Comrie and calculating machines	31
Comrie's approach to computing	31
Comrie as a 'consultant'	31
More on Comrie and mathematical tables	32
Comrie and the International Astronomical Union, etc.	32
Comrie's personal relations	33
Comrie and bureaucracy	34
Comrie's marriages	34
Comrie's relations with N.A.O. staff	35
Comrie and the N.A.O. complement	35
A note on my establishment and appointment	36

Other appointments	36
‘Winds’ — a job for the War Office	37
Comrie's final bid for more staff	37
PART 2 AT GREENWICH: 1936–1939	39
4 Change and expansion	39
Changes in administrative responsibility for the N.A.O.	39
The work and staffing of the Office	41
The post of N.A.O. secretary	42
Initial recruitment of junior staff	43
Expansion for air navigation	44
Acquisition of new calculating machines	45
5 New developments	46
The Occultation Supplement	46
<i>Air Almanac and Astronomical Navigation Tables</i>	46
Introduction of the <i>Air Almanac</i>	47
<i>Astronomical Navigation Tables</i> for use in the air	48
I.A.U. General Assembly in Stockholm (1938)	49
A threatened dispute on copyright	50
<i>Apparent Places of Fundamental Stars</i>	51
Other publications	51
6 Procedures and moves	53
A comment on official procedures	53
Move to Devonport House	53
Evacuation to Bath	54
Appointment as Secretary of the Royal Astronomical Society	55
PART 3: AT BATH 1939–1949	57
7 Early days at Bath (before move to Ensleigh)	57
Early days in Bath	57
My billets in Bath	58
Initial work in Bath	59
Mathematical tables	60
Wartime astronomical projects	60
Black-out times and repayment work	61
Ryde night-illumination diagrams	61
The astrograph	61
Coriolis effect	62
Twilight for air navigation	63
Non-astronomical work of the Office	63

	Bomb Ballistic Tables	63
	A job for Massey	64
	Security at Laggan and war service	65
	Life in war-time	66
	A storm at Bath	66
	Bombing of Hammond's printing works	66
8	From the move to Ensleigh until the end of the war	67
	The move to Ensleigh	67
	The bombing of Bath in 1942	67
	Staff changes	68
	Duties of the staff	69
	Calculating and punched-card machines	70
	Specialist course for air navigation	71
	Relations with the Royal Air Force	72
	Computations for the DECCA Navigation system	73
	A personal note	74
9	The Admiralty Computing Service	75
	Preamble	75
	The beginning of the Admiralty Computing Service	75
	The first job — on the Taylor bubble	76
	Recruitment of staff	77
	Range and background of A.C.S. jobs	78
10	The post-war period (to about the end of 1947)	80
	A visit to Germany	80
	The post-war period in Bath	81
	Post-war changes in staff	82
	Formation of the Mathematics Division at N.P.L.	83
	Captain Schmidt and Decca for Denmark	84
	Cooperation with the Spanish Almanac Office	84
	<i>The Star Almanac</i>	85
	The Institute of Navigation	85
	Honours	86
	Other events of the post-war period	86
11	Major changes in the post-war period	88
	Visit to the U.S.A. in 1947	88
	Revision of the <i>Abridged Nautical Almanac</i>	89
	Tables for marine navigation	90
	Further comments on tables for navigation at sea	91
	New equipment and other topics of discussion	92
	The return journey from the U.S.A.	92

The General Assembly of the I.A.U. in Zurich in 1948	92
Concern as to the future site of the Office	94
The new Scientific Civil Service	95
A search for a 'celestial mechanic'	96
Other staff changes	97
<i>Planetary Co-ordinates</i>	97
The move to Herstmonceux	97
PART 4 AT HERSTMONCEUX 1949–1972	99
12 Early years at Herstmonceux: 1949–1951	99
Move from Bath to Herstmonceux	99
Early days at Herstmonceux	99
Administrative arrangements	100
The start of the R.G.O. Club	101
Work of the Office	102
Visit to U.S.A. in 1949	102
Conference on Astronomical Constants in 1950	104
Follow-up and other activities	105
Vacation students	105
Visit to North America in 1951	106
Office appointments and activities in 1950 and 1951	107
<i>The Star Almanac for Land Surveyors</i>	108
13 End of the Spencer Jones era: 1952–1955	109
Installation of punched-card equipment	109
Responsibilities of Miss McBain	109
The lunar occultation programme	110
I.A.U. General Assembly in Rome in 1952	110
Navigational work in 1952–1955	111
Institute of Navigation	112
Visits by navigators	113
A minor annoyance	113
Responsibilities of Dr Porter	113
Visit by Professor Herrick	114
Activities in 1952–1955 continued	114
Loss of position in computing	115
Visit to the U.S.S.R. in 1954	115
Conformity of the almanacs	116
Marriage to Miss F. M. McBain	117
I.A.U. General Assembly in Dublin in 1955	117
The change of Astronomer Royal	118

14	Woolley becomes Astronomer Royal	119
	Woolley becomes Astronomer Royal	119
	Woolley's administrative style	119
	Anecdotes about Woolley	121
	Role of the Astronomer Royal	121
	Work of the N.A.O. in 1956–1959	122
	Visit to Washington and Montreal in 1956	123
	Committee on the definition of the second	123
	Preparation of <i>Interpolation and Allied Tables</i>	123
	Preparation of <i>Subtabulation</i>	124
	Visit by Wilkins to U.S.A. in 1957–1958	124
	Prediction service for artificial satellites	125
	N.A.O. accommodation in the West Building	126
	Staffing matters	126
	The I.A.U. General Assembly in Moscow in 1958	127
	The acquisition of the ICT 1201 computer	127
	Staff changes	128
	The <i>Explanatory Supplement</i>	128
	Other activities in 1958–1959	130
	Promotion to D.C.S.O.	130
15	Period as General Secretary of the I.A.U.	132
	Relationships of the N.A.O. and R.O. Cape to R.G.O.	132
	Appointment as the A.G.S. of the I.A.U.	133
	Appointment as General Secretary of the I.A.U.	133
	Overseas visits in 1960–1963	135
	The I.A.U. General Assembly in Hamburg in 1964	137
	Federation of Astronomical and Geophysical Services	137
	N.A.O. activities in 1960–1964	137
	Retirement of Dr. Porter	138
	N.A.O. Reunion in 1963	138
	Replacement of the ICT 1201 computer	138
	Transfer of R.G.O. from the M.o.D. to the S. R. C.	139
16	Transfer to the S.R.C.	141
	Transfer of the R.G.O to the S.R.C.	141
	Activities in 1965–1966	142
	Celestial mechanics and astronomical constants	142
	The occultation programme	143
	Bicentenary of the <i>Nautical Almanac</i>	144
	Relations with the A.R.	146
	Notes on the staff	147

Appreciation of the work of Mr. Scott	148
Retirement of Mr. Scott	149
Overseas visits in 1966–1967	149
The future of the <i>Astronomical Ephemeris</i>	150
Proposal for a department of celestial mechanics	151
Aside on the Institute of Theoretical Astronomy	151
The I.A.U. General Assembly in Prague in 1967	152
As President of the R.A.S. and visit of the Queen	152
Statutes of the I.A.U.	153
Relations with other ephemeris offices	153
17 A change of duties	155
A change of duties	155
Preparations for the I.A.U. General Assembly in Brighton	155
Events during the I.A.U. General Assembly in 1970	157
Activities after the I.A.U. General Assembly	157
N.A.O. records	158
Retirement arrangements	158
 EPILOGUE — PERSONAL HISTORY FROM 1972	 160
 APPENDICES	 161
1. Additional notes on the life of Donald H. Sadler	161
1A. Tribute to Dr. D. H. Sadler, O.B.E., by Doreen Barrett	161
1B. Obituary of D. H. Sadler by G. A. Wilkins	162
1C. References concerning D. H. Sadler	165
2. Letters written by D. H. Sadler on his retirement	167
2A. To the Directors of the National Ephemeris Offices	167
2B. To the members of the staff of H.M.N.A.O.	167
3. Supplementary notes on the Admiralty Computing Service	170
3A. Undated note by D. H. Sadler to Mary Croarken	170
3B. Complementary note by D. H. Sadler	172
4. References to the history of H.M. Nautical Almanac Office	176
